Mrs. Lauretta Schutte
Blue Grass, Iowa

Dear Mrs. Schutte:

Sorry about the book jacket for DOCTOR HAS A FAMILY still being on your bulletin board. It should have been removed when the collection was changed last time. If you will notice the date on the list on which the book is included, you will find that it was last March, I believe, and that it was brought back at the time of the last book exchange. There may still be a few books on the March list left in your collection, but that's because they were in circulation at the time of the exchange. The book is now at another station. We can get it for you, but if it's not imperative, it would be better to give the other station its chance on the book. I shall try to get out some other book jackets for your board and send them to you, so you can take that one off!

The fee for out of county borrowers is \$3.00 a year - or 75¢ for three (3) months, with a maximum of six (6) books at any one time - that means any combination, adult only, adult and juvenile, fiction and non-fiction, etc.

At present there are no more Orton books in that have not been at Blue Grass. We do not have either ROOMMATES or DEBBIE JONES.

I hope you had a fine time on your vacation and that you found everything all right after Mary's and my substituting. One thing - please keep your set of dates in proper order in the box. I straightened them all out that night I was there, and it was a mess! There is no reason for not putting a number right back in the hole it came out of when the stamp is changed. If you hold the dater with the skew at the right, then the numbers are correctly placed in the box to be lifted right out and put into the dater - if the box stands on the table so that it opens away from you.

Yours very truly,

Elizabeth B. Hage
Librarian
